

# MISSION: **EASY**

## SEE & FREE

Objective: ESCAPE

### □ Stop 1

**QUACK!** To free the first animal, look for the biggest airplane around. It was once called a lame DUCK because at first it failed. But after trying again, this plane was the first to cross the Atlantic Ocean!

### □ Stop 2

**ROAR!** Next find the TIGER! It was the first Navy aircraft to fly faster than the speed of sound! It was as fast as a flash! Do you see its lightning bolt?

### □ Stop 3

**BLEAT!** A few steps away, there's a CAMEL IN THE MUSEUM! One of the best pilots in World War 1 flew a plane like this. This camel has a spinning engine! Do you see the bucket under its landing gear?

### □ Stop 4

**BOCK!** Do you hear CHICKENS? This plane delivered mail before Amazon and FedEx! It was famous for BARNSTORMING where pilots would do tricks while flying over farms.

### □ Stop 5

**MOOOOVE IT.** You'll have to take a few steps to find the next plane. Look for a plane that looks like a barn roof: big and metal. Believe it or not, A COW flew in a plane like this and was even milked on board! It was also the first NAVY plane to fly over the South Pole!

### □ Step 6

**MEOW!** Next, you'll need to find a cat: a WILDCAT. This cat has a blue nose and a silver body. The WILDCAT was one of the best planes of World War 2. Many heroes flew this plane and received Medals of Honor for their service.

### □ Step 7

**YIKES!** Look for this plane's big SHARK teeth and the TIGER on its side. This plane was flown by pilots called the FLYING TIGERS to keep China safe from Japan years ago.

**Naval Air Station Pensacola**

## BONUS STOP

### World War II

### □ Step 8

**QUACK TWO!** There is another DUCK trapped in this museum! It was used for all kinds of things like taking pictures and taking people to the doctor. It could land on the water, on a ship, or on land!

### □ Step 9

Is it a BEAR? Is it a CAT? It's a BEARCAT! This plane was a real beast at air races. It was one of the fastest aircraft around! It was also once flown by the BLUE ANGELS!

## Hangar Bay One

### □ Step 10

You get to free two animals at this stop: a TURTLE and a KANGAROO! A KANGAROO flew on this TURTLE! Can you believe that? This airplane flew from Australia to Ohio with a kangaroo on board as a gift from Australia to the United States. It set a distance record on that flight of over 11 thousand miles!
